

Safety Contract

This contract is to make sure that students are aware of the rules and their responsibility to keep a safe environment in the laboratory.

I Will:

- 1. Wear safety goggles during all experiments.**
- 2. Follow instructions given by the teacher and will not perform unauthorized experiments.**
- 3. Know the location and how to use the safety equipment in the classroom. This includes the fire extinguisher and eye wash kit.**
- 4. Behave in a responsible manner at all times.**
- 5. Know who to contact and what to do in an emergency.**
- 6. Do not eat, drink, or chew gum in the laboratory.**
- 7. Never taste chemicals unless instructed to do so by your teacher.**
- 8. Notify the instructor immediately in the case of an accident.**
- 9. Wear appropriate clothing and shoes in the lab. Be sure to tie back long hair.**
- 10. Never point the open end of a test tube being heated at yourself or other students.**

I _____ have read the safety rules
Student's Name
above and agree to follow these rules.

Date: _____ Student's signature _____

Date: _____ Parent's signature _____

Classroom Rules: (or the top 10 ways to make Mr. Schultz happy and give you all of your participation points!)

1. Bring materials to class. You should bring your text daily, along with your calculator and materials to take notes. Do NOT bring food or drink, as part of this room is a working laboratory.

2. If you are going to be/have been absent, it is YOUR responsibility to see me about a make-up assignment. Please do this at the end of the class period.

For homework and quizzes, you have as many days to turn the assignment as you were absent. For tests and labs, you may choose to have an extension until the following Thursday.

3. Do your homework - the only way to succeed is to practice! Class time is for working, not playing. Chemistry assignments come first. Should you complete your chemistry assignment, then you may work on something else. Wasting time (playing cards, etc.) will not be tolerated.

4. Do not talk while someone else (especially Mr. Schultz) is talking. Please raise your hand if you have a question and I will call on you as soon as I am at a stopping point.

5. Please stay in your seat until the bell sounds.

6. While attendance is taken, get your materials ready to take notes. Be ready to start as soon as I am finished! If you do so, you may talk QUIETLY until attendance is completed. Please be on time. You are considered tardy if you enter the doorway after the bell sounds.

7. Follow all instructions, especially in the laboratory. Dress appropriately for lab.

8. All school rules will be enforced.

9. Please do not leave the room unless it is absolutely necessary. You MUST have a hall pass. Leaving the room without permission, unless in an emergency situation, will result in a referral.

Please ask questions! However, it would be appreciated if you do NOT ask these: 1) Did I miss anything important when I was gone? 2) If I turn this in, will it raise my grade? 3) Is there anything I can do for extra credit? 4) Do I need to know this for the test?
